EDUCATION HISTORY

College of electronic devices

Location: Ivano-Frankivsk, Ukraine
Institution: Software development
2009 - 2013

EXPERIENCE

Front-End / Web Developer (Freelance)

CIABCN — Branding & Advertising Agency

2024 – Present

Barcelona, Spain

Develop and maintain marketing websites and landing pages for client campaigns of a Barcelona-based creative/branding agency. Work primarily with Next.js, implementing responsive UI, performance optimization, and interactive components based on design requirements. Provide ongoing updates and technical support for active projects.

Full-stack Developer

Clear Mortgage Capital, Inc. — Mortgage Lender

Jun 2020 - Present · 6 yrs 1 mo

Irvine, California, US

Full-Stack Developer responsible for building and maintaining web applications using Symfony and Vue.js. Contributed to the development of a SaaS CRM platform for a mortgage company using Laravel, Vue 3, Tailwind, Docker, and CircleCI, working across API design, feature development, and deployment workflows.

Back-end Developer

PMFarma — Pharma Marketing Media

May 2018 - Jun 2020 · 2 yrs 1 mo

Barcelona, Spain

Contributed to the development and maintenance of PMFarma's web applications as a Back-end Developer. Utilized Laravel for server-side logic and integrated front-end components built with HTML, CSS, JavaScript, Bootstrap, and Vue.js 2.
